SCOPE OF THE JOURNAL

International journal of Mobile Network Communications & Telematics (IJMNCT) is an open access peer-reviewed journal that addresses the impacts and challenges of mobile communications and Telematics. The journal also aims to focus on various areas such as ecommerce, e-governance, Telematics, Telelearning nomadic computing, data management, related software and hardware technologies, and mobile user services. The journal documents practical and theoretical results which make a fundamental contribution for the development of mobile communication technologies.

Topics of Interest

- Mobile Computing Software Architectures
- Mobile Network Traffic Engineering, Performance & Optimization
- Mobile Network Management and Service Infrastructure
- Mobile Computing
- Integrated mobile marketing communications
- Efficacy of mobile communications
- Mobile communication applications
- Critical success factors for mobile communication diffusion
- Metric mobile business enterprise
- Mobile communication security issues and requirements
- Mobile and handheld devices in the Education
- Telematics
- Tele-learning
- Privacy and Security in Mobile Computing and Wireless Systems
- Cross-cultural mobile communication issues
- Integration and Interworking of Wired and Wireless Networks
- Location management for mobile communications
- Distributed Systems Aspects of Mobile Computing
- Operating System and Middleware Support for Mobile Computing
- Interaction and integration in mobile communications
- Business models for mobile communications
- E-commerce & E-governance
- Nomadic and Portable communication
- Wireless information assurance
- Mobile Multimedia Architecture and Network Management
- Mobile Multimedia Network Traffic Engineering & Optimization
- Mobile Multimedia Infrastructure Developments
- Mobile Multimedia Markets & Business Models
- Personalization, Privacy and Security in Mobile Multimedia
